His digital movie company Prelude2Cinema has shown movies in New York, France, the U.K. and Cleveland, Ohio. He remains dedicated to recreating the Hollywood studio system in Cleveland, Ohio. Alex has created the TV Series "Out of Darkness," which will be the first production from K.S.M.I. Mr. Michaels will head K.S.M.I. The Knight Studio Movie Incubator (K.S.M.I.)

In his book, "Trump: the Art of the Deal," Donald Trump recounts how when NBC was reconsidering leaving New York's Rockefeller Center for a cheaper space in New Jersey, he proposed building Television City. Television City was to be a business and residential space with the studio centered there and other businesses around it. Things did change and NBC remained where it was, and Trump went on to build another structure at his location. Yet, the ideal was sound and can work for the Studio Incubator. Only we would not build a place, but take over an existing place and then later expand as the need arises. There are a number of vacant buildings that can house the Incubator. The Studio will be at the hub of the Incubator and will surround itself with businesses that can support movie and TV production. Each business will share in the profits from the incubator. The landlord of the property can also share in the profits provided they supply the facility at a below market rates.
